ABOUT

I build images with intent.

I'm **Arturo Chu**, a director of photography and director based in Mexico City. For about 15 years I've shot advertising, documentary, fashion, music videos, narrative and personal projects.

Every frame, lens and light source serves the story and the brand. Today I add generative AI to my workflow to open creative possibilities and speed up productions, without losing direction or judgment.

WHAT I DO

Three ways to tell your story

01

Cinematography & direction

Commercials, branded content, fashion, music videos, corporate and narrative. From visual proposal to set.

Advertising · Fashion · Music videos · Corporate · Narrative · Drone aerials

02

AI filmmaking

Commercials, previz and generative content, or hybrid: live action + AI. Less time and cost, with a cinematographer's judgment.

AI commercials · Previz · Generative content · Hybrid

03

Stills photography

Campaigns, portraiture, product, editorial and on-set stills. The same eye, in a single frame.

Campaigns · Portrait · Product · Editorial · On-set stills

Based in Mexico City. Available for projects worldwide.

AI FILMMAKING

Film & advertising, powered by AI

I pair a cinematographer's eye with generative AI tools to create impossible images, speed up production and cut costs, from idea to final delivery.

CREDENTIAL

15 spots · 100% AI

Campaign for Simi (Farmacias Similares, Mexico): fifteen 15-second commercials generated entirely with AI.
